Product description

High quality effective spray to refresh the air conditioning and air circulation system in vehicles.

Very easy to apply
Very effective
Subtle scent

Physical and Chemical Characteristics

Contents : 150 ml
VOC-content : Approximately 99% w/w

Usage

Before use, carefully read the directions on the packaging and act accordingly.

The aerosol should have room temperature.
Best processing temperature 5 to 30°C.
Before use, shake the aerosol

Start the engine and let the engine idle. Put both chairs and the back of the chairs in front position. Put the air circulation system on full power in the recirculation position.

Place the Airco Refresher behind the chairs, activate the aerosol by once pressing the nozzle and close the door.

After full evaporation of the Airco Refresher, the engine should idle for some minutes.

Switch off the engine and ventilate the vehicle for approximately 10 minutes.
